Licensee shall promptly notify CloudBolt of any actual or suspected misuse or unauthorized disclosure of Confidential Information, and, upon the request, shall promptly return all copies of Confidential Information within its possession or control. In addition, Licensee is aware that: (a) the Software is based on a portfolio of third party technology products, industry standards and/or official standards; and (b) the hypervisors, server automation software, hardware, framework software and storage and network software that the abstraction layer of the Software that connects to; are constantly evolving and changing or may be even be succeeded by yet unknown new products or techniques. Therefore performance interruptions or incompatibilities due to such cause(s) are excluded from any liability of CloudBolt to Licensee and are a form of force majeure.

12.2 Waiver. Any waiver of the provisions of this Agreement or any agreement related to this Agreement or of a party's rights or remedies under this Agreement must be in writing to be effective. Failure, neglect, or delay by a party to enforce the provisions of this Agreement or agreement related to this Agreement, or its rights or remedies at any time will not be construed nor deemed to be a waiver of such party's rights under this Agreement and will not in any way affect the validity of the whole or any part of this Agreement or prejudice such party's right to take subsequent action.

12.3 Applicable Law and Jurisdiction. This agreement will be governed by and interpreted in accordance with the laws of the State of Delaware, without giving effect to principles of conflict of laws. The parties acknowledge and agree that this Agreement shall be construed and enforced without regard to the United Nations Convention on the International Sale of Goods.

12.4 Severability. If any term, condition, or provision in this Agreement or Agreement is found to be invalid, unlawful or unenforceable to any extent, the parties will endeavor in good faith to agree to such amendments that will preserve, as far as possible, the intentions expressed in this Agreement. If the parties fail to agree on such an amendment, such invalid term, condition or provision will be severed from the remaining terms, conditions and provisions, which will continue to be valid and enforceable to the fullest extent permitted by law.

12.5 Independent Parties. The parties will at all times be independent parties and will present themselves to all other parties as such. Nothing in this Agreement will be construed to make either party, and each party agrees that it is not an agent, employee, franchisee, joint venture or legal representative of the other party.

Each party hereto is an independent contractor. A party does not have, and shall not represent itself to have, any authority to bind the other party or act on its behalf.

12.6 Compliance with Laws; Export Control; Government Regulations. Each party shall comply with all laws applicable to the actions contemplated by this Agreement. Licensee represents that: (a) it is not, and is not acting on behalf of: (i) any person who is a citizen, national, or resident of, or who is controlled by the government of any country to which the United States has prohibited export transactions; or (ii) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List; and (b) it will not permit the Software to be used for, any purposes prohibited by law, including, any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons. The Software and accompanying documentation are deemed to be “commercial computer software” and “commercial computer software documentation”, respectively, pursuant to DFAR Section 227.7202 and FAR Section 12.212(b), as applicable. Any use, modification, reproduction, release, performing, displaying or disclosing of the Software and documentation by the U.S. Government shall be governed solely by the terms and conditions of this Agreement.

12.7 Notices. Any notices required or permitted under the terms of this Agreement or required by law will (unless otherwise provided) be in writing and will be delivered in person, or send by registered mail or fax to the respective contact persons indicated in the QOF, as may be updated from time to time upon notification by one party to the other party. Any such notice will be considered to have been given at the time of actual delivery in person or, if sent by fax, at the time mentioned on the transmission result report, or within five (5) days after it was mailed in the manner specified above.

12.8 Equitable Relief. Licensee acknowledges that a breach of Section 2.0, 3.0 or 11.0 will cause CloudBolt irreparable damage, for which the award of damages would not be adequate compensation and therefore Licensee agrees that CloudBolt is entitled to obtain prompt injunctive relief to enjoin Licensee from any and all acts in violation of those provisions without the necessity of posting a bond or other security. Such injunctive relief remedy shall be cumulative and not exclusive and CloudBolt may seek any other relief available at law or in equity.

12.9 High Risk Activities. The Software is not fault-tolerant and is not designed, manufactured or intended for use or resale as on-line control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines, or weapons systems, in which the failure of the Software could lead directly to death, personal injury, or severe physical or environmental damage ("High Risk Activities"). Accordingly, CloudBolt and its suppliers specifically disclaim any express or implied warranty of fitness for High Risk Activities. Licensee assumes all risk of loss or damage for use of the Software in High Risk Activities.

12.10 Feedback. In connection with M&S, the CloudBolt knowledge base, community forum(s) or Licensee's use of the Software, Licensee may provide suggestions, enhancement requests, recommendations or other feedback ("**Feedback**"). Licensee hereby grants to CloudBolt a non-exclusive, transferable, sublicensable, world-wide, perpetual, royalty-free, irrevocable license to reproduce, create derivative works from, distribute, perform, display and otherwise use Feedback (including, but not limited to, incorporating it into the Software) and without any confidentiality obligation in any manner whatsoever.

12.11 Assignment. This Agreement may not be assigned, subcontracted or transferred by Licensee, in whole or in part, whether voluntary, by operation of contract, law or otherwise, without the prior written consent of CloudBolt. Any attempted assignment or transfer in violation of the foregoing will be null and void. Subject to the foregoing, this Agreement will be binding upon and will inure to the benefit of the parties and their respective successors and assigns.

12.12 Third Party Rights. Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it, and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

12.13 Entire Agreement, Order of Precedence. This Agreement (including all Quote/Order Forms, which are incorporated herein by reference), constitutes the entire agreement between the parties with respect to the subject matter hereof, and supersedes and replaces all prior and contemporaneous oral or written communications between the parties relating in any way to the subject matter hereof. No terms or conditions of any purchase order, acknowledgement or other business form that Licensee may use in connection with the acquisition or licensing of the Software and related services will have any effect on the rights, duties or obligations of the parties under, or otherwise modify, this Agreement, regardless of any failure of CloudBolt to object to such terms, provisions or conditions. In the event of a conflict between the terms of this Agreement and a QOF, this Agreement shall prevail unless the QOF expressly states the provisions in this Agreement over which it will preside. Notwithstanding the foregoing, if there is a separate signed agreement between Licensee and CloudBolt governing Licensee's use of the Software the order of precedence shall be: (a) the signed agreement; (b) this Agreement; and (c) the QOFs.
